About

PRODUCTION, DISTRIBUTION, ORGANISATION, SYNCHRONISATION, FINANCING, EXPORT and more... FIND THE RIGHT MIX!

Electronic music is the soundtrack of today. It is also a rich ecosystem which can sometimes be difficult to understand.

Electronic Music Factory is a package providing quick information and practical tools to guide you at every stage of your project.

As a result of the Electronic Music study carried out in France in 2016, it has been possible to measure the scope of the sector, to better understand its stakeholders and their behaviour, but also to identify its strengths and weaknesses.
