Finding the publisher of an existing work

How do you know if a song you want to use, for example for a remix, is in SACEM's repertoire?

You can search for works in the Sacem repertoire at sacem.fr/en.

Searches can be carried out by title, creator and performer. If you cannot find the work you're looking for, you should contact Sacem by email at [societaires@sacem](mailto:societaires@sacem.fr) fr or by phone : +33 1 47 15 47 15.

- **Search for works in the SACEM repertoire at :** <https://repertoire.sacem.fr/en>

When you have identified the work, you should contact the author or his/her rightholders. Members' contact details are confidential, but contact details for publishers are in the public domain, and can be found at [“Repertoire of Works” website](#).
